

Japan

Report of Windsor Official Delegation to Fujisawa, Japan, February 8-11, 2018.

Japan is located in a group of four major islands and a thousand small islands on the Pacific coast of East Asia. Almost 70% of the land is high mountains with more than 100 active volcanoes. Japan has a very old and rich history lasting over a thousand years and has developed a unique culture. Japan is a constitutional monarchy, which has preserved the role of the Emperor and is the oldest, unbroken dynasty in the world. The Japanese economy requires a progressive system of manufacture for export, such as the automotive industry, to be able to import food and resources important to support a comfortable lifestyle for about 130 million citizens. Japan is a member of the G7 and has the third largest economy (GDP) in the world.

Fujisawa

Fujisawa, Japan, and Windsor, Canada, are sister cities since 1987.

Declaration signed on December 2, 1987: The City of Windsor, Province of Ontario, Canada and the City of Fujisawa, Kanagawa Prefecture, Japan hereby pledge eternal friendship and wish prosperity to both cities with mutual exchanges of education, culture, tourism, and other programs. This will contribute to a better understanding between the people of Canada and Japan to achieve world peace and prosperity.

The city of Fujisawa is located in the Shonan region of Kanagawa Prefecture, Japan and has a population of 420,254 residents. It sits in the centre of Kanagawa's industrial infrastructure, characterized by factories and large corporations that have expanded Fujisawa's mixed economy to include major manufacturing, truck plants, steel factories, and technological centres. Fujisawa is known for its commercial shopping facilities, and it is a commuter city for residents travelling from neighbouring areas. Also, Fujisawa sits on Sagami Bay; it is accessible to many beaches and small islands that are collectively part of Fujisawa. An example is Enoshima Island, which is a small island that attracts many tourists and visitors from around the country. Since the twinning relationship between Windsor and Fujisawa, various exchanges and programs have taken place that have helped relations flourish on all levels. The twinning relationship is demonstrated through reciprocated visits of official delegations, event collaborations, special gift exchanges and memorable anniversary celebrations.

The year 2017 is a watermark year for the development of this friendship, as it will mark the 9th consecutive visit of exchange students from Fujisawa's Misono School through a two-week trip that provides an opportunity for students to experience and immerse in our culture. This year will also mark the celebration of the 30th Anniversary of the Twin City relationship between both cities and the planting of a Cherry Blossom tree, a gift from Fujisawa, which represents the unofficial national flower of Japan.
